

日独エネルギーパートナーシップ
Energiepartnerschaft
DEUTSCHLAND – JAPAN

Supported by:

on the basis of a decision
by the German Bundestag

Agenda

Women in leadership

Japanese-German Energy Partnership

01.03.2023

17:30 – 19:30 h (JST)

Only one in five leadership roles in the energy sector are held by women, according to the World Economic Forum's Global Gender Gap Report 2022. Although studies show how important diversity is for innovation and good business, the energy sector is still a male dominated one. As Japanese German partnership we strive for diversity and tolerance by empowering and encouraging women to advance their career in the energy field.

Language: English (tbc)

Venue: German Chamber of Commerce and Industry in Japan (AHK Japan)

Fee: Free of charge

Organizer: Secretariat of the Japanese-German Energy Partnership
